

# AALO NEWS

## Bringing Healthcare to the Community

A very successful health fair event was held in Chatsworth. Representatives from El Proyecto del Barrio, AALO, Living Praise Christian Center and Black Infant Health take a moment for a photo.

## Health Fair

March 13, 2016

It was early Sunday morning when the **El Proyecto Mobile Clinic** rolled into the parking lot of the **Living Praise Christian Center** in Chatsworth. It was time to begin setting up for a health fair that would take place later that morning. The **LPCC Missions Department** sponsored the event and team member **Devaki Magee, MPH** was there putting tables in place, organizing vendors and making sure everything was ready when congregation members started to arrive. **AALO** has established a partnership with **El Proyecto** to bring healthcare screening and testing to communities all across the San Fernando Valley. Devaki also invited organizations to bring information about vital resources in the community including the **American Red Cross**, **WIC**, **UCLA Early Headstart**, **Champions for Change**, the **YMCA** and the **Black Infant Health Program**. There were approximately 150 people attending and participating in the Health Fair.
