LEAP

Leadership, Education Action Plan

Good leaders are **made** not born. If you have the desire and willpower, you can become an effective leader. Good leaders develop through a never ending process of self-study, education, training, and experience. This training is intended to help you through that process.

October 26, 2013

A workshop was held in Pacoima at the Greater Missionary Baptist Church.

You were born with a purpose. To do something specific. To contribute to the world in a very specific way and to have an impact. Knowing your God-given purpose is very important. Your prosperity, your wealth, your success is tied to your Life's Mission. In order to have complete and total success in every area of your life you must pursue your God-given purpose. It's where your passion is and where you'll find the most joy.

From AALO President **Bob Winn**, "I believe that we have a responsibility an obligation if you will to provide leadership opportunities for our community. Future generations cannot be expected to step up and advance the causes that are important to our community if they are not given the direction and skills to do so. Workshops like the one AALO sponsored today are a part of that preparation. We intend to continue with these kinds of workshops."

Bob greets, encourages and shares some fun with participants.

"**Chef Roxie**" provided delicious and healthy breakfast, lunch and snacks for event. Roxanne is AALO's "go to" person for catering community events.

Bob, Harroll and Rev. Lett share a moment after the workshop. Rev. Lett has been very accommodating in making the **Greater Missionary Baptist Church Hall** available for training and community meetings. We appreciate his willingness to partner with AALO to benefit the community.

Harroll V. Chisom, LEAP Facilitator

"... what you discover today is just the beginning. Finding your purpose can be very difficult. It may be completely different from the way you're living your life now. It takes deep introspection, careful analysis and thoughtful expression. But it's worth it."
