National Health Center Week

August 9 -15, 2015

National Health Center Week is celebrated each year in August. The goal of National Health Center week is to create public awareness of the valuable role community health centers play in the delivery of health care to underserved populations. MCCN sponsors a community event each year at many of its locations throughout the San Fernando Valley and Los Angeles.

The Facts: Health Centers serve over 24 million Americans at more than 9,000 delivery sites in all 50 states, the District of Columbia, Puerto Rico and U.S. territories. One in every fifteen people living in the United States depends on their services. Health Centers deliver high quality, cost effective, accessible care while serving as critical economic engines helping to power local economies.

MCCN-BIH staff participated at the North Hills site on August 12.

Black Infant Health staff from left: **Roxanne, Tiana, Lynn, Stephanie, Marlene and Chanelle**

Dr. Thuy Nguyen Tran MCCN Dental Director stops by to connect with BIH staff members.

MCCN clinic staff provides free health checks for the event.

Sheelah Muhammad greets Roxanne. Ms. Muhammad is a Physician Assistant at MCCN and BIH Advisory Board Member.

Health Education information is provided.

Funded by the California Department of Public Health, Los Angeles County Department of Public Health and First 5 LA
Additional Funding MCCN-BIH from The California Wellness Foundation
