# The Black Infant Health Program

10200 Sepulveda Boulevard Suite 300 • Mission Hills, CA 91345 • 818-830-6373

**Melissa Miller, LMT**  
**Program Manager**

## Project Safe Collaborative

**February 24, 2015**

Project SAFE's goal is to help families that don't have ready access to a network of support that makes their all-important job easier. Project SAFE is First 5 LA's Partnerships For Families (PFF) initiative serving SPA 2. Project SAFE collaborates with a network of agencies that serve families in the San Fernando Valley and share a common dedication to creating a safer, more nurturing community for all of our children. Project SAFE's focus is supporting families with children 0-5, by providing a wide range of confidential, family-centered services that build on each family's unique strengths and values. For more information [www.projectsafela.org](http://www.projectsafela.org).

BIH Program Manager **Marlene Rowlett** greets Melissa at the Collaborative meeting held in Van Nuys. BIH has worked with Project Safe for a number of years and attends meetings on a regular basis.

Funded by the California Department of Public Health, Los Angeles County Department of Public Health and First 5 LA  
Additional Funding MCCN-BIH from The California Wellness Foundation
