MISSION CITY COMMUNITY NETWORK-NONPROFIT COMMUNITY CLINIC

## Groundbreaking Event

**January 6, 2014.**

Community members, elected officials, agency representatives and news media come out to celebrate the building of a new state-of-the-art medical building in North Hills. MCCN continues to expand to provide more access to care for the community.

New MCCN medical facility to be located at 8527 Sepulveda Boulevard in North Hills.

"We are thrilled that we received the HRSA grant for \$5M in addition to Kaiser Permanente's support of \$500,000 because these funds will enable us to carry out our mission of providing primary care, dental care, and behavioral health services, at a state-of-the-art facility," said Nik Gupta. At the same time, we are increasing access to health care for our Affordable Care Act patients as well as the growing number of uninsured children and adults in the community. We are grateful for the support that the community and elected officials have given MCCN to make this construction possible!"

The new facility will be 19,800 square feet of clinic space. Medical and behavioral health clinics will be located on level 2 and level 3 will house a dental clinic and administrative offices. The building will be completed in February 2015.

**Nik Gupta, CEO, Mission City Community Network, Inc. (MCCN)**

Features of the new facility include 35 exam rooms, six provider rooms, a nurse's station, a health education room, and a conference room.

15206 Parthenia Street North Hills, CA 91343 (818) 895-3100
